

Script for Zycus Compliance Video

Draft v1.3

Medium: 2D Color Animation

Duration: 90 secs (+/- 10 sec for vo)

	Scenes	Text on Screen.
1.	We have the illustration like in the reference with a proportionately larger sized icon of compliance icon at the center with an icon for lock on it. The lock opens up and all the secondary locks in the frame open up. The dollar signs turn into red and the frame blinks to project a compromise. https://healthitsecurity.com/images/site/article_categories/HIPAA_and_Compliance.jpg	Lack of compliance can pose imminent threat to your organization, compromising your buying power in a competitive market.
2.	Transition to right to a cleaner frame. Show Zycus’ logo in the center, followed by the suite modules’ icons circling the icon. Show a stamp of compliance across the circle	Zycus’ Strategic Sourcing Suite helps you create a compliant procurement process which conforms with the regulations!
3.	The logo then moves forward and becomes a mark on a illustration of a eyewear through which various sections of the excel sheets are easily highlighted. On the right there is a thermostat like switch to control savings and hands pops out and reducing the savings.	The solutions help in complying with the contract terms by increasing spend visibility to reduce maverick spends and erosion of cost savings.
4.	We see the illustration as in the link below of a team coming together. https://images.megapixl.com/5772/57721752.jpg	You can involve the legal team in the contract creation & review process to ensure compliance and avoid any breach!
5.	Show a timeline indicating the supplier on-boarding process, with ticks coming up at each stage, followed by evaluation and scorecard icons	Also, maintain strict control on regulatory compliance during supplier on-boarding process, and reduce supplier risk by defining evaluation KPIs and scorecards.
6.	Show a bell/alert icon in the center, with the following three icons coming in the outer semi-circle – milestones, deliverable and SLAs. This will expand into icons of expiry, utilization, off-contract spending and risk obligation	Zycus Suite provides intelligent automated alerts and reminders to help you track key milestones, deliverables and service level agreements like - contract expiry, utilization, off-contract spending and risk obligation.

7.	Show all the solution icons coming together in a row with Zycus icon on the top, ending with a thumbs up icon	Zycus solutions ensure that your organization’s procurement process gets the right support to ensure all compliances are met.
8.	Show contact information below the suite icons.	For more information, contact us!
