Voice Over Narrative

Alex, the entrepreneur started his company a decade ago, he found an able partner in on-premise solutions to manage his procurement processes.

As his organization flourished, the amount of procurement data & complexity of processes increased substantially.

Alex knew, managing huge amount of complex data spread across geographies will significantly increase the cost of infrastructure, customization, integration, maintenance, IT Personnel& training.

Looking for a scalable & cost-effective solution to address all his problems, Alex came across SaaS.

Forrester's report states, SaaS spend in 2017 was \$95 Billion, which is 1.5 times more than on-premise license spend. This spend was equally distributed across geographies with an increase of 25% y-o-y.

SaaS has become one of the most important global enablers for transformation of business and is being adopted by most of the leading vendors and organizations.

SaaS based solutions would help Alex make a significant difference to his total cost of ownership, as he has to account for no spends except, license fee.

The deployment is simple and integration seamless as the vendor takes up-time guarantee and end to end responsibility

www.advids.co

This allows Alex's team to focus on strategic tasks.

Making up his mind to move his on-premise procurement solution to SaaS, Alex needed an ideal partner to help him make the entire migration process seamless.

This led Alex to Zycus!

Zycus, with its unrivalled technical expertise provided seamless integration& migration support.

With its cloud-based, SaaS solutions, Zycus streamlined various procurement processes

which benefited Alex's organization in imperatives like cost-savings, compliance, risk management, and collaboration.

It assured Alex of complete security of his data, as Zycus' solutions are ISO 27001:2013 certified, SOC1 & SOC2 compliant and hosted on AWS servers.

Other features like Superior Mobility, Faster Deployment, Multitenant Architecture Easier Maintenance & Low Lock-in made Alex's experience of migrating to SaaS incredibly easy!

Like Alex, and many others you too can migrate your procurement solution to SAAS and accelerate your organization' growth by choosing Zycus as your migration & integration partner!

Video Screen Play

	Scene Description	Voice Over Narrative
1	We start with a view of a small-medium scale organization and show Alex (the company CPO) standing next to it. We see the company/ organization illustration being replaced by that of an “On-premise” solution and see it connected to various icons which include: IT, servers, databases, codes along with procurement processes.	Alex, the entrepreneur started his company a decade ago, he found an able partner in on-premise solutions to manage his procurement processes.
2	We cut back to see a more flourished and successful organization and see the illustrations of organization increase in size along with the data, complexity and geographies related to procurement increase in the background.	As his organization flourished, the amount of procurement data & complexity of processes increased substantially.

3	We zoom in through the window of the organization to see Alex, sitting in his cabin and stressing over the increased costs of (will be shown as icons/ illustrations) TCO, software licensing, customization and implementation, hardware, IT Personnel, maintenance and training, and infrastructure.	Alex knew, managing huge amount of complex data spread across geographies will significantly increase the cost of infrastructure, customization, integration, maintenance, IT Personnel& training.																												
4	All of the icons combine to form a question mark (A thought bubble to Alex) and we see this thought bubble rise up and the question mark break away to form an illustration depicting SaaS on cloud.	Looking for a scalable & cost-effective solution to address all his problems, Alex came across SaaS.																												
6	We cut to see the cloud move to shown a comparison chart depicting the SaaS spend as 95\$ Billion and 1.5 times more than that of an on-premise solution along with the information source on the bottom right of the screen (Forrester’s). Figure 1: SaaS Subscription Revenues are Outpacing On-Premises. Global Spending on License and SaaS Software (in billions) <table><tr><th>Year</th><th>License</th><th>SaaS Subscription</th></tr><tr><td>2011</td><td>\$62.6</td><td>\$23.5</td></tr><tr><td>2014</td><td>\$63.3</td><td>\$50.4</td></tr><tr><td>2017</td><td>\$59.4</td><td>\$95.5</td></tr></table> Figure 2: Global business application SaaS revenue by region (in billions) <table><tr><th>Year</th><th>America</th><th>Europe, Middle East and Africa</th><th>Asia Pacific</th></tr><tr><td>2016</td><td>\$45</td><td>\$13</td><td>\$11</td></tr><tr><td>2017</td><td>\$56</td><td>\$16</td><td>\$12</td></tr><tr><td>2018</td><td>\$71</td><td>\$20</td><td>\$13</td></tr></table> This will be depicted with the help of bar chart and graphs.	Year	License	SaaS Subscription	2011	\$62.6	\$23.5	2014	\$63.3	\$50.4	2017	\$59.4	\$95.5	Year	America	Europe, Middle East and Africa	Asia Pacific	2016	\$45	\$13	\$11	2017	\$56	\$16	\$12	2018	\$71	\$20	\$13	Forrester’s report states, SaaS spend in 2017 was \$95 Billion, which is 1.5 times more than on-premise license spend. This spend was equally distributed across geographies with an increase of 25% y-o-y.
Year	License	SaaS Subscription																												
2011	\$62.6	\$23.5																												
2014	\$63.3	\$50.4																												
2017	\$59.4	\$95.5																												
Year	America	Europe, Middle East and Africa	Asia Pacific																											
2016	\$45	\$13	\$11																											
2017	\$56	\$16	\$12																											
2018	\$71	\$20	\$13																											
7	We zoom out to see the graphs convert to multiple organizations and see a cloud emerge over each of the organization with “SaaS” written on it.	SaaS has become one of the most important global enablers for transformation of business and is being adopted by most of the leading vendors and organizations.																												

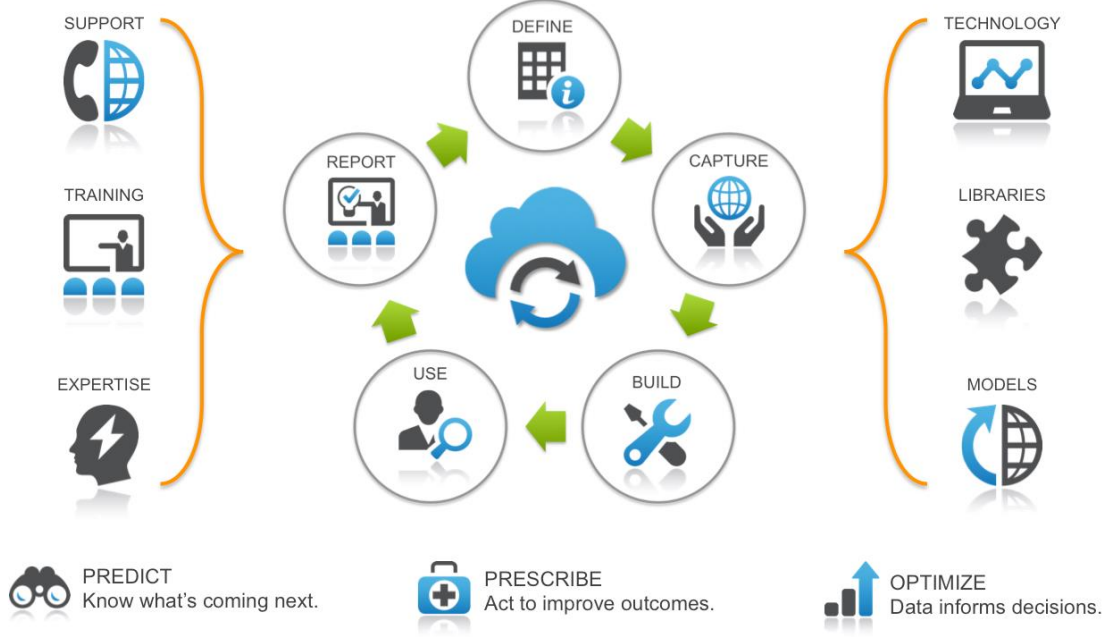

8	We show a stack of “currency” depicting underground, on top, we show Alex’s organization. The stack of money beneath depicts various costs involved. Next, we show the cloud of SaaS on top of the organization and move stacks of costs to the cloud. At last, stack that remains below is of Subscription fees. On Premises - Software Licensing Cost - Customization & Implementation - Hardware - IT Personnel - Maintenance - Training Software (as a Service) - Subscription Fees - Implementation, Customization & training Ongoing Costs - Apply patches, upgrades - Downtime - Performance tuning - Rewrite customization - Rewrite integrations - Upgrade dependent applications - Ongoing burden on IT (hardware) - Maintain/upgrade security - Maintain/upgrade database Ongoing Costs' - Subscription fees - Training - Configuration - System administration	SaaS based solutions would help Alex make a significant difference to his total cost of ownership, as he has to account for no spends except, license fee.
9	We cut to see a SaaS deployment model animate on the screen and then zoom out to see the model intricate in a gear system and we show the gears running in-sync smoothly to depict the smooth functioning of the model. Reference:	The deployment is simple and integration seamless as the vendor takes up-time guarantee and end to end responsibility This allows Alex’s team to focus on strategic tasks.

	 ACCRETIVE PREDICTIVE ANALYTICS AS A SERVICES we provide the infrastructure and know-how... and you reap the benefits 	
10	We show two thought bubbles appear to Alex, in the first named “SaaS” we show a heavy checkmark and in the next one we show him having a question as “How”?	Making up his mind to move his on-premise procurement solution to SaaS, Alex needed an ideal partner to help him make the entire migration process seamless.
11	We zoom into the second thought bubble and reveal the Zycus logo.	This led Alex to Zycus! Zycus, with its unrivalled technical expertise provided seamless integration& migration support.

12	We form the Zycussuite of solutions around the logo and then see the zycus logo rise up on top of the organization and continue to the second scene. One by one, we see the icons for mission-critical and risk-sensitive processes rise up and absorb in to cloud around the Zycuslogo(to depict streamlining and migration to cloud). As the icons reach the cloud, we see the icons of “Cost-saving”; “Compliance”, and “Risk-management” pop out of the cloud. Reference Image:	With its cloud-based, SaaS solutions, Zycus streamlined various procurement processes which benefited Alex’s organization in imperatives like cost-savings, compliance, risk management, and collaboration.
13	We show some experts from Zycus in consultation with Alex and are seen giving him a presentation, in the presentation we see the Zycus expert talk about the features and illustrations of ISO 27001:2013 certified, SOC1 & SOC2 compliant and hosted on AWS servers appear in the background to which Alex is seen nodding in affirmation.	It assured Alex of complete security of his data, as Zycus’ solutions are ISO 27001:2013 certified, SOC1 & SOC2 compliant and hosted on AWS servers.

14	We zoom in to the presentation and see the icons for various features of Zycus, as mentioned in the narrative animate on the screen. Towards the end of the narrative, we see Alex shaking hands with the Zycus experts and organization running successfully with a connection to the cloud “SaaS” and data lines connecting the organization and the Cloud.	Other features like Superior Mobility, Faster Deployment, Multitenant Architecture Easier Maintenance & Low Lock-in made Alex’s experience of migrating to SaaS incredibly easy!
15	We zoom out to see various organizations like Alex’s appear on the screen and see the Zycus logo above each one which gets converted to the logo of SaaS.	Like Alex, and many others you too can migrate your procurement solution to SAAS and accelerate your organization’ growth by choosing Zycus as your migration & integration partner!
16	We cut to see the Zycus logo, website and the email ID for contact	To know more, get in touch with us today at www.zycus .com
